Dear Gohar

Thank you for visiting us at the Deaf Advice Service Sheffield on 25th July the presentation you gave was fantastic and we are delighted to support HealthDeafinitions.

The Deaf Advice Service Sheffield has been established since 1987 and through our work within the Deaf community we are aware of the immense barriers Deaf people face on a daily basis and the importance of accessible information.

Health information is so vital and is a basic Human Right, we see the distressing consequences where there has been no or inappropriate communication support and discriminatory practices within the NHS.

Your innovative project is not only essential for the Deaf community but it's educational and awareness raising benefits will prove to be long reaching. Although British Sign Language information on DVD exists never has anything been so clearly presented and easy to understand, with visual effects that amaze!

We wish you and your team every success with HealthDeafinitions and we will maintain the link we have set up with great enthusiasm and interest.

Many thanks

Kate Bushen
