Dear Gohar

On behalf of York Deaf Society I am writing to inform you that we thoroughly support your project in creating a DVD for Deaf people. It is high time we Deaf people are treated equally. For too long have we been shunted aside with nary an explanation or the briefest of explanations what exactly was wrong with us whenever we were ill, in the doctor's surgery or in hospital.

For many years we have seen our members becoming extremely stressed and depressed due to lack of information or no access to information and because of these problems it takes considerable time for them to return to what they were.

The DVD will go a long way in solving many questions we would be asking and after all knowledge itself is power. Thus, empowerment is of utmost importance to us all!

All the very best for the worthwhile project.

Yours sincerely

Robert G. Hofschroer
