1st December 2008

Dear Ranjit

Thank you for your presentation which was much enjoyed by those who attended. It was a pity the power-point became temperamental during the evening but at least we all managed to watch the rest of the DVD. We were all impressed by what has been done so far. It was very interesting to observe Deaf people vigorously nodding their heads in agreement when you said we were often left out when our families discussed about a family member's illness or hospitalisation and the hearing people looking at us!!

Enclosed is a cheque to reimburse your travel expenses.

On behalf of York Deaf Society I would like to thank you and your assistant for everything.

All the best for the project.

Yours sincerely

Robert G. Hofschröer
